BOARD POLICY**

No. 0100

0000 – STRATEGIC PLANNING

0100 - Commitment to Strategic Planning

The Board of Directors recognizes that the goals of high quality education for all students and increasing student achievement require structures, processes, skills, and ways of thinking that must be established for the district. The Board of Directors commits the district to the process of strategic planning in order to provide a fundamental governance and management structure for the district. Planning will enable the district to respond to new developments and continually improve education within the discipline of the planning process.

The strategic plan adopted by the district will be subject to and consistent with the constitutions and statutes of the United States and Washington State. Policies adopted by the Board and administrative practices will be measured against and consistent with the strategic plan.

Through the strategic planning process, the Board affirms its commitment to continuing and active involvement with the community, staff, and students. The district's planning, implementation, and evaluation processes will incorporate community, staff and, where applicable, student participation and opportunities for public input.
