Principles of Operation

1630 - Evaluation of the Superintendent

At the time of the appointment of a superintendent, the board will determine the duties and responsibilities of the superintendent and will incorporate these, along with such other considerations as may be appropriate, in a written contract.

The board will plan to meet with the superintendent at least twice each year for the purpose of evaluation and setting goals for the ensuing year.

The evaluation of the superintendent will be based on the board's assessment of the success of the superintendent in carrying out the duties and responsibilities contained in the contract and in achieving the goals and objectives set forth in writing at the previous meeting or meetings.

The board, on the basis of the evaluation, may renew and/or extend the superintendent's contract for periods not to exceed three years.
