

**WHITE RIVER SCHOOL DISTRICT #416  
BOARD POLICY**

**No. 4040**

4000 COMMUNITY RELATIONS

Communication with the Public

**4040 – Public Access to District Records**

Consistent with Washington State law, the Board is committed to providing the public full access to records concerning the administration and operations of the District. Such access promotes important public policy, maintains public confidence in the fairness of governmental processes, and protects the community's interest in the control and operation of its common school district. At the same time, the Board desires to preserve the efficient administration of government and acknowledges the privacy rights of individuals whose records may be maintained by the District. This policy and the accompanying procedure are intended to facilitate access to school district records without compromising operational efficiency or privacy rights.

As used in this policy and the accompanying procedure, "school district records" is a broad term that includes any writing containing information relating to the conduct of the District or the performance of any District governmental or proprietary function prepared, owned, used, or retained by the District regardless of physical form or characteristics. A "writing" as used in this policy and procedure is likewise a broad term that means any handwriting, typewriting, printing, photocopying, photographing, or other means of recording any form of communication or representation. Included within these definitions are digital and electronic forms of communication, including emails, texts or messages through any medium or application, pages, postings and comments from any District-operated or District-sponsored website. The District will retain public records in compliance with state law and regulations.

The definition of "school district records" does not include records that are not otherwise required to be retained by the District and are held by volunteers who do not service in an administrative capacity, have not been appointed by the District to a District board, commission, or internship, and do not have a supervisory role or delegated District authority.

Because of the tremendous volume and diversity of records continuously generated by a public school district, the Board has declared by formal resolution that trying to maintain a current index of all of the District's records would be impracticable, unduly burdensome, and ultimately interfere with the operational work of the District. Additionally, the Board hereby finds that it would be unduly burdensome to calculate the costs of producing public records, as well as the fluctuating costs of District supplies and labor.
