4060 – Distribution of Materials

The board recognizes that nonprofit organizations may want to distribute materials in the school district that are non-curricular but that have social, recreational or educational value for students.

Any nonprofit group wishing to distribute informational material must first submit, to the superintendent or a designee, a copy of the material. These materials must also be approved by the building principal. The primary purpose of the standards is to prevent the exploitation of students by individuals or groups.

It is the responsibility of the superintendent, in conjunction with the building principals to draft procedures regarding this policy.
