

**BOARD OF DIRECTORS**

**EVALUATION OF THE BOARD**

By April of each year, the Board shall have an opportunity to have access to information on how the District performed on the objectives of a five-year strategic plan. The Board President may request the development and administration of a Board member self-evaluation of the Board's contributions to the successes of meeting the objectives of the strategic plan. The results of the self-evaluation, if administered, will be compiled by the Superintendent and the information made available to strategic planning committees in subsequent years.
