

STUDENTS

Student Discipline

“Discipline” means any action taken by the school district in response to behavioral violations. Discipline is not necessarily punitive, but can take positive and supportive forms. Data show that a supportive response to behavioral violation is more effective and increases equitable educational opportunities. The purposes of this policy and accompanying procedure include:

- Engaging with families and the community and striving to understand and be responsive to cultural context
- Supporting students in meeting behavioral expectations, including providing for early involvement of parents
- Administering discipline in ways that respond to the needs and strengths of students and keep students in the classroom to the maximum extent possible
- Providing educational services that students need during suspension and expulsion
- Facilitating collaboration between school personnel, students, and parents, and thereby supporting successful reentry into the classroom following a suspension or expulsion
- Ensuring fairness, equity, and due process in the administration of discipline
- Providing every student with the opportunity to achieve personal and academic success
- Providing a safe environment for all students and for district employees

The Superintendent shall establish and make available rules of student conduct, designed to provide students with a safe, healthy, and educationally sound environment. Students are expected to be aware of the district’s rules of student conduct, including behavior standards that respect the rights, person, and property of others. Students and staff are expected to work together to develop a positive climate for learning.

Minimizing exclusion, engaging with families, and supporting students

Unless a student’s presence poses an immediate and continuing danger to others or an immediate and continuing threat of disruption to the educational process, staff members must first attempt one or more forms of other forms of discipline to support students in meeting behavioral expectations before imposing classroom exclusion, short-term suspension, or in-school suspension. Before imposing a long-term suspension or expulsion, the district must first consider other forms of discipline.

These other forms of discipline may involve the use of best practices and strategies included in the state menu for behavior developed under RCW 28A.165.035. The accompanying procedure will identify a list of other forms of discipline for staff use. However, staff members are not restricted to that list and may use any other form of discipline compliant with WAC 392-400-025(9).

School personnel must make every reasonable attempt to involve parents and students to resolve behavioral violations. The district must ensure that associated notices, hearings, conferences, meetings, plans, proceedings, agreements, petitions, and decisions are in a language the student and parents understand; this may require language assistance. Language assistance includes oral and written communication and further includes assistance to understand written communication,

STUDENTS

Student Discipline

even if parents cannot read any language. The district's use of suspension and expulsion will have a real and substantial relationship to the lawful maintenance and operation of the school district, including but not limited to, the preservation of the health and safety of students and employees and the preservation of an educational process that is conducive to learning.

As described in the procedures, the district will offer educational services to students during suspension or expulsion. When the district administers a long-term suspension or expulsion, the district will timely hold a reengagement meeting and collaborate with parents and students to develop a reengagement plan that is tailored to the student's individual circumstances, in order to return the student to school successfully. Additionally, any student who has been suspended or expelled may apply for readmission at any time.

Staff authority

District staff members are responsible for supervising students during the school day, during school activities and on the school bus. Staff members will seek early involvement of parents in efforts to support students in meeting behavioral expectations. The Superintendent has general authority to administer discipline, including all exclusionary discipline. The Superintendent will identify other staff members to whom the Superintendent has designated disciplinary authority. After attempting at least one other form of discipline, teachers have statutory authority to impose classroom exclusion for behaviors that disrupt the educational process.

Ensuring fairness, providing notice, and an opportunity for a hearing

When administering discipline, the district will observe all of the student's constitutional rights. The district will make a reasonable attempt to notify parents about classroom exclusion and before administering any suspension or expulsion. For a long-term suspension or expulsion, the district will provide opportunities for parent participation during an initial hearing with the student in person or by telephone. The district will provide parents with written notice, consistent with WAC 392-400-455, of a suspension or expulsion no later than one school business day following the initial hearing. As stated above, language assistance includes oral and written communication and further includes assistance to understand written communication, even if parents cannot read any language. The district has established procedures for review and appeal of suspensions, expulsions, and emergency expulsions, consistent with WAC 392-400-430 through 392-400-530.

Development and review

The district will periodically collect and review data on disciplinary actions taken against students in each school. The data will be disaggregated into subgroups as required by RCW 28A.300.042, including students who qualify for special education or Section 504. The data review will include classroom exclusion, in-school and short-term suspensions, and long-term suspensions and expulsions. The purpose of the data review is to determine if disproportionality exists; if disproportionality is found the district will take action to ensure that it is not the result of discrimination and may update this policy and procedure to improve fairness and equity regarding discipline.

Student Discipline

Distribution of policies and procedures

The school district will make its discipline policies and procedures available to families and the community. The district will annually provide its discipline policies and procedures to all district personnel, students, and parents, which may require language assistance for students and parents with limited-English proficiency under Title VI of the Civil Rights Act of 1964. The school district will ensure district employees and contractors are knowledgeable of the discipline policies and procedures.
