451

STUDENT INSURANCE

Policy

The Middleton-Cross Plains Area School District is not responsible for health or accident insurance for individual students. The District recommends that parents/guardians review their health and accident insurance to determine if coverage is adequate for their student(s). The District offers a voluntary (parent/guardian paid) student accident insurance plan for families that do not have insurance coverage or want to supplement the existing insurance coverage they have for their student(s). Information on the voluntary student accident insurance plan is available from each school office or through the District's website.
