

PROHIBITION OF REGISTERED SEXUAL OFFENDERS ON SCHOOL PROPERTY

Recognizing that the safety and welfare of students is of paramount importance, the Asotin-Anatone School Board of Directors hereby declares that, except in limited circumstances, as approved by the Superintendent, the Asotin-Anatone School District, (“AASD”) will not permit registered sex offenders to be on AASD property. Registered sex offenders are classified by RCW 4.24. The board further authorizes the Superintendent to cause personal service of “No Trespass Notices” to all registered sex offenders who are known to reside within the Asotin-Anatone School District boundaries. The “Notice of No Trespass” constitutes a final decision of the Board of Directors for appeal purposes.

The Board of Directors declares that no registered sex offender may come on the property of the AASD except as otherwise provided in this policy and as maybe required by State and Federal law or court of competent jurisdiction. If an administrator or designee becomes aware that a registered sex offender is on school property, the administrator or designee shall direct the sex offender to leave the areas immediately, unless the sexual offender is in possession of prior written permission from the Superintendent stating the reasons for such approval or permission. The school administrator shall advise the Superintendent of the presence or removal of a registered sex offender from school property as soon as reasonably possible.

A student who is on the sex offender registry may be assigned alternative education, as deemed appropriate by school officials and consistent with State and Federal laws.

Enforcement of this policy shall occur immediately upon the school administration becoming aware that a person on the Sex Offender Registry is on school property.

The provisions of this policy prohibiting a registered sex offender from coming on school property shall not apply in the event that a sex offender’s name has been lawfully expunged from the registry.

The Superintendent shall be responsible for developing and implementing procedures for the Prohibition of Registered Sexual Offenders on School Property in compliance with this policy.
