

Rights and Responsibilities

Each year, the superintendent shall develop and make available to all students, their parents and staff handbooks pertaining to student rights, conduct, corrective actions and punishment. Such statements shall be developed with the participation of parents and the community. The school principal and staff shall confer at least annually to develop and/or review student conduct standards and the uniform enforcement of those standards as related to the established student handbooks. They will seek to develop precise definitions for common problem behaviors and build consensus on what constitutes manifestation of those problem behaviors. The definitions will also address differences between major and minor manifestations of problem behaviors to identify those problem behaviors that teachers and other classroom staff can generally address and those problem behaviors that are so severe that an administrator needs to be involved. This work will also help district staff identify and address differences in the perception of subjective misbehaviors and reduce the effect of implicit bias.

They shall also confer annually to establish criteria for determining when certificated employees must complete classes to improve classroom management skills.

All students who attend the district's schools shall comply with the written policies, rules and regulations of the schools, shall pursue the required course of studies, and shall submit to the authority of staff of the schools, subject to such corrective action or punishment as the school officials shall determine.
