Chelan Digital Academy (CDA)

Chelan Digital Academy is an online, self-paced option for high school students in the Lake Chelan School District. CDA gives students an opportunity to learn at their own pace and recover or accelerate their learning through a standards-aligned curriculum and engaging online platform. Students meet weekly in person with their teacher, then work on coursework primarily from home. Students must maintain “satisfactory” status to remain in the program. Students have the ability to take rigorous core classes in addition to electives and honors classes. Students at Chelan Digital Academy are still required to meet all district and state requirements for graduation.

The Lake Chelan School District believes that a variety of learning options, including online courses, are critical for today’s students. Online learning provides opportunities for students in grades 9-12 to access courses in a flexible learning environment that meets the individual needs of each student.

Students may take advantage of accessing courses 24 hours per day, seven days a week. With online access, Students have the opportunity to earn additional credits to meet the 24 credit graduation requirements. Course content is delivered using Edgenuity which is a state approved online provider.
