

## **School Improvement Plans**

Each school will develop and adopt a school improvement plan or process, with annual review for progress and necessary changes. Each school will submit its plan to the board *at* a board meeting in *November* of each year for initial approval and annual review..

Each school improvement plan will be data driven and will promote a positive impact on student learning. A positive impact on student learning means promoting the continuous achievement of the state learning goals and essential academic learning requirements, and the achievement of nonacademic growth in areas like public speaking, leadership, interpersonal relationship skills, team work, self-confidence and resiliency. The intent is that students can meet the goals of Washington's basic education system: to become responsible citizens, to contribute to their own economic well-being and that of their families and communities, and to enjoy productive and satisfying lives.

Each school improvement plan will be based on a building staff self-review that includes the active participation and input of staff members, students, parent/guardians and community members.

Each school improvement plan will address the following elements:

- A. Characteristics of effective schools as identified by the Office of the Superintendent of Public Instruction and the educational service district ( plans may focus on one or several of the characteristics for up to three (3) years);
- B. Safe and supportive learning environments;
- C. Educational equity factors including gender expression or identity, race, ethnicity, culture, language and the presence of any sensory, mental or physical disability or the use of a trained guide dog or service animal by a person with a disability. ;
- D. Use of technology;
- E. Parent/guardian and community involvement; and
- F. Other factors identified by the school community for inclusion in the plan..

Any school participation in a program of school improvement assistance through the state accountability system or the federal Elementary and Secondary Education Act will constitute sufficient compliance with this policy.
