

**A Message from Mr. Graffis
Superintendent/Principal**

Greetings . . . we are currently enjoying another fantastic school year at Dixie Elementary School!!! Our parents, students & staff have committed to creating a student-centered environment where the development of each student is our one and only goal . . . where *each student can achieve their personal best!!!*

Students attending Dixie Elementary School benefit from the following:

- Safe Learning Environment
- Personalized Attention
- Curriculum Integration and Specialization
- Sense of Belonging
- Trust and Respect
- Accountability
- Positive School Culture

Our small, rural school offers an environment in which student-teacher relationships allow us to easily identify the individual talents, as well as the unique needs of each student. We can easily address different learning styles, thus offering a more personalized educational experience.

However . . . *Schools Cannot Do It Alone!!!* We need your continued support!!! Every student, each and every day, must know that there is an adult who cares and believes in them. Please join us as we **Take Kids On** and guide them on their journey to success. Through our efforts together . . . *we can continue to make a difference.*
