

2013-2014 Pioneer Elementary Improvement Plan

English Language Arts Action Plan

School Improvement Goal	All Pioneer Elementary students will demonstrate proficiency and measureable growth, in reading, toward their individualized year end goal as indicated by local and state assessments. Specific, low-scoring/standard areas to improve: vocabulary/word recognition, analyzing text, and comprehension.
Target Population	All K-3 students at Pioneer Elementary
Learning Strategies	We will implement Common Core ELA state standards to ensure the standards are understood and integrated into the curriculum. The implementation of GLAD and Marzano instructional strategies will help to further enhance students' background knowledge, vocabulary/word recognition, analyzing text, and comprehension.
Rationale	Research-based reading instruction is critical for all students, especially when used in leveled groups. Pioneer Elementary reading data indicates the need for additional support in the areas of vocabulary/word recognition, analyzing text, and comprehension.

Reading Action Plan

School Improvement Goal	All Pioneer Elementary students will demonstrate proficiency and measureable growth, in math, toward their individualized year end goal as indicated by local and state assessments. Specific, low-scoring/standard areas to improve: Math Vocabulary, Number Sense, Problem Solving Strategies, and Geometry/measurement.
Target Population	All K-3 students at Pioneer Elementary
Learning Strategies	We will utilize the curriculum, pacing guides, and assessments aligned with CCSS and Washington State Standards.
Rationale:	Research-based math instruction is critical for all students. Pioneer Elementary math data indicates the need for additional support in the areas of number sense, reasoning and mathematical problem solving, and geometry.

2013-2014 Pioneer Elementary Improvement Plan

Technology Action Plan

School Improvement Goal	Technology integration at Pioneer Elementary will further enhance and support instruction and curriculum while giving students transferable technological skills.
Target Population	All K-3 students and staff at Pioneer Elementary
Learning Strategies	Staff will integrate technology in to a core subject area to ensure Pioneer Elementary students are given the opportunity and exposure to experience 21st century learning strategies.
Rationale	Research indicates that the integration of technology creates a more engaging and authentic educational experience for all students.
