

## RIGHTS AND RESPONSIBILITIES

Annually, the superintendent or designee will develop handbooks pertaining to student rights, conduct, and discipline, and make the handbooks available to all students, their parents/guardians, and staff members. The building principal and certificated building staff member(s) will confer at least annually to develop and/or review student conduct standards and the uniform enforcement of those standards as related to the established student handbooks. They will seek to develop precise definitions for common problem behaviors and build consensus on what constitutes manifestation of those problem behaviors. The definitions will also address differences between major and minor manifestations of problem behaviors to identify those problem behaviors that teachers and other classroom staff members can generally address and those problem behaviors that are so severe that a district administrator needs to be involved. This work will also help district staff members identify and address differences in the perception of subjective misbehaviors and reduce the effect of implicit bias.

They will also confer annually to establish criteria for determining when certificated staff members will complete classes to improve classroom management skills.

All students who attend the district's schools will comply with the written policies, rules, and regulations of their schools, will pursue the required course of studies, and will submit to the authority of building staff member(s), subject to such discipline, including other forms of discipline as the school building principal or designee will determine.
