Dear Lake Chelan School Board,

After much reflection, I would like to formally resign my position at Holden Village School, effective August 31, 2021.

Rolf and I arrived in this area in the late summer of 1991. I taught in Manson for 14 years, Chelan for 9 years, and Holden for almost 5 years. After our year at Holden, we are moving to Port Townsend to retire. I grew up on the other side of the mountains, and it does feel like going home.

When I look back at these years, my coworkers and my students stand out. I have been inspired by their passion for teaching and learning, as well as their hard work and persistence.

Sincerely,

Karen Ruth Crowell

February 1, 2021

Dear Barry,

I am writing to inform you that I will be retiring at the end of this school year. I will separate from service on August 31st and my official retirement date will be September 1, 2021.

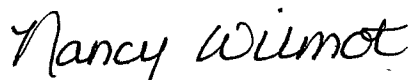

My twelve years at Chelan High School were the highlight of my teaching career! I began teaching in 1981 and worked in "home kitchens" for most of my career. What an honor to be able to have the last several years working in the beautiful commercial kitchen that we have now and I have learned so much about running this space as well!

I appreciate all of the support that I have received from the staff at CHS, the Lake Chelan School District staff and the community. Being able to have Chef Gormley come in and teach the students was definitely a highlight. We had the opportunity to work together for nine years. I have also appreciated the community support for the Taste of Chelan Restaurant Walk that the FCCLA Club did for so many years.

Another aspect of my job that I did not have prior to coming to Chelan was to work with the students in the FCCLA Club. I had the opportunity to watch many of them grow as leaders as they competed in Regional, State and National competitions across the country. I was privileged to take students to the FCCLA National Competition in San Antonio, Texas, Washington D.C., Nashville, Tennessee, Atlanta, Georgia and Anaheim, California. All of the students who attended FCCLA National competition came home with gold medals that they worked hard to earn and I am so proud of each one of them. For the last two years I have had an FCCLA State Officer and have learned even more about the many opportunities that FCCLA offers to develop students into future leaders.

Thank you for the opportunity to teach in this wonderful district!

Sincerely,

A handwritten signature in cursive script that reads "Nancy Wilmot".

Nancy Wilmot
